#### **B. Submitting Comments**

Written comments and recommendations for the proposed information collection

should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under Review - Open for Public Comments" or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

## **II. Background**

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, 10 CFR part 11, "Criteria and Procedures for Determining Eligibility for Access to or Control Over Special Nuclear Material." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on September 1, 2022, 87 FR 53795.

1. *The title of the information collection:* 10 CFR part 11, "Criteria and Procedures for Determining Eligibility for Access to or Control Over Special Nuclear Material."

2. *OMB approval number:* 3150-0062.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* N/A.
5. *How often the collection is required or requested:* On occasion.
6. *Who will be required or asked to respond:* Employees (including applicants for employment), contractors, and consultant for NRC licensees and contractors whose activities involves access to, or control over, special nuclear material at either fixed sites or for transportation activities..
7. *The estimated number of annual responses:* 558.
8. *The estimated number of annual respondents:* 2.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 139.4 (139 reporting and 0.4 recordkeeping).
10. *Abstract:* The NRC's regulations in part 11 of title 10 of the Code of Federal Regulations (10 CFR), establish requirements for access to special nuclear material, and the criteria and procedures for resolving questions concerning the eligibility of individuals to receive special nuclear material access authorization. The specific part 11 requirements covered under this OMB clearance include requests for exemptions to part 11 requirements, amendments to security plans that require incumbents to have material access authorizations, access authorization cancellations. In addition, licensees must keep records of the names and access authorization numbers of certain individuals assigned to shipments of special nuclear material. The information required by 10 CFR part 11 is needed to establish control over and maintain records of who is properly authorized to safeguard and have access to special nuclear material. Not knowing this information could cause harm to the public and national security.

Dated: January 18, 2023.

For the Nuclear Regulatory Commission.
